Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 January 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-33 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1, 12, 22, and 33, the applicant has positively recited the combination of the assembly and the vehicle/truck. It is suggested that the applicant use the phrase "adapted to" when referring to the unclaimed vehicle/truck and its associated components. Claims 4, 13, 14, 23, 24, recite similar ambiguities.

With respect to claim 11, line 2, it is unclear as to the number of attachment assemblies required. Note, it appears that only one assembly has been set forth.

With respect to claim 22, lines 7-9, there appear to be no illustration of the ladder pivoted sideways in a deployed configuration/orientation. Further, is the deployed orientation of line 7, the same as the deployed configuration of line 9.

With respect to claim 33, there is no antecedent basis for the third pivot of line 13.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3634

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 9, 12-17, 22-28, and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Elia #5,617,930. Elia discloses a ladder assembly comprised of tailgate (1) mounted mounting structure components 3, 5, 12(ladder engaging), 13(ladder engaging), 29, 37 & 38 (mounting members), attachment/pivot assemblies 12(ladder engaging), 13(ladder engaging), 14, 17, 31, locks 18, 19, 32, 33, a second pivot axis 20 that allows the ladder to placed in the deployed configuration of Figure 2, and ladder side rails 21, 22, that lie within/between the mounting members in a storage configuration, as best seen in Figure 4.

Allowable Subject Matter

Claims 8, 10, 11, 18, 20, 21, 29, 31, 32, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim, any intervening claims, and in addition to claim 33, rewritten to overcome the Section 112 ambiguities as noted above. The primary reason for the allowable subject matter of claims 8, 18, and 29, is the inclusion of the attachment assembly having a third pivot structure. For claims 10, 20, and 31, it is the inclusion of the attachment assembly having a securing member that couples to the sides of the ladder and a plurality of mounting locations that engage the securing member to allow the securing member to be attached to the mounting locations at a plurality of different mounting orientations. For claim 33 it is the inclusion of the third and fourth pivot axes of the yoke ends. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Art Unit: 3634

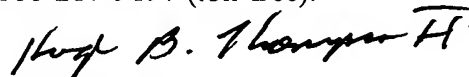

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Keh-Lin #5,366,052, McComb #4,909,352, Griffin et al #4,877,108, Prochaska #4,482,029, Rolson #6,003,633, Kumher et al #6,315,078, Huber #6,820,723, Berberich #2,946,397, Monaghan et al #3,123,178, and Ross #4,408,680 are cited to teach ladder vehicle attachment assemblies.
